Contents of Volume 22, 1983

Numbers One and Two

A perspective on communications and computing 5
A. L. Scherr

X.25 and related recommendations in IBM products 11
G. A. Deaton, Jr. and R. O. Hippert, Jr.

Teletex—A worldwide link among office systems for electronic document exchange 30
D. J. Moore

A token-ring network for local data communications 47
R. C. Dixon, N. C. Strole, and J. D. Markov

Reflections on VM/Pass-Through: A facility for interactive networking 63
N. Mendelsohn, M. H. Linehan, and W. J. Anzick

A Satellite Communications Controller 81
J. W. Fennel, Jr. and B. D. Gobioff

Series/1-based videoconferencing system 97
D. Anastassiou, M. K. Brown, H. C. Jones, J. L. Mitchell, W. B. Pennebaker, and K. S. Pennington

NIL: A high-level language for distributed systems programming 111
F. N. Parr and R. E. Strom

Communications Network Management enhancements for SNA networks: An overview 129
T. P. Sullivan

An application of network management at a large computing service 143
R. D. Garrigues

Number Three

Abstract design and program translator: New tools for software design 170
J. L. Archibald, B. M. Leavenworth, and L. R. Power

The system architecture of EAS-E: An integrated programming and data base language 188
D. P. Pazel, A. Malhotra, and H. M. Markowitz

A simple architecture for consistent application program design 199
G. R. Rogers

The Project Automated Librarian 214
J. M. Prager

Automatic generation of random self-checking test cases 229
D. L. Bird and C. U. Munoz

Full-screen testing of interactive applications 246
M. E. Maurer

Software reliability analysis 262
P. N. Misra

Design and use of a program execution analyzer 271
L. R. Power

Number Four

Advanced program-to-program communication in SNA 298
J. P. Gray, P. J. Hansen, P. Homan, M. A. Lerner, and M. Pozefsky

SNA Distribution Services 319
B. C. Housel and C. J. Scopinich

Interconnecting SNA networks 344
J. H. Benjamin, M. L. Hess, R. A. Weingarten, and W. R. Wheeler

An experimental address space isolation technique for SNA networks 367
K. D. Ryder

Logical problem determination for SNA networks 387
R. A. Weingarten and E. E. Iacobucci

Performance and availability measurement of the IBM Information Network 404
R. M. Bailey and R. C. Soucy

SNA routing: Past, present, and possible future 417
J. M. Jaffe, F. H. Moss, and R. A. Weingarten

Defining routing tables for SNA networks 435
K. Maruyama

Windows in the sky—Flow control in SNA networks with satellite links 451
G. A. Grover and K. Bharath-Kumar
